

III[®] MULTISTACK[®]

New in 2017 from MULTISTACK

III[®] MULTISTACK[®] Dedicated Outdoor Air System

Variable Capacity Compressor Technology

Indoor or Rooftop

- Cooling coils—chilled water, or DX
- Heating coils—hot water, electric or steam
- Double wall cabinet with full thermal break— 1-, 2- or 4-inch foam
- Direct drive plenum fans—AC or EC motor technology
- Internal bypass for free cooling
- Modular construction
- Introduces tempered air directly to occupied space
- Improves efficiencies with decoupled outside air treatment

Fixed Plate Total Energy Recovery Cores

- Reduced outside air load—both sensible and latent loads
- No moving parts for long life and easy maintenance
- Virtually zero leakage between airstreams
- No condensation—reduces environment for mold growth
- Great performance at low temperatures
- AHRI—certified performance

Other energy recovery technologies available including enthalpy wheels, heat pipes, sensible cores.
